PROFESSIONAL EXPERIENCE

IBM - Customer Success Engineer Co-Op

August 2026 - December 2026

- Within the Financial Markets team, supporting enterprise level businesses adopt IBM AI & Data software by developing agentic AI harnesses and tools, creating and presenting technical demos, and further implementing post-deployment plans.

GitHub - Product Manager Intern

May 2026 - August 2026

- Leading product discovery for GitHub's core migration engine moving 200K+ repositories monthly, converting F500 user research into cross-functional PRDs to define the FY27 roadmap.
- Designing a post-migration validation tool to eliminate cutover risk for 43% of GitHub's top 100 enterprise clients, utilizing repository checksums to accelerate platform adoption.
- Coded agentic AI workflows using Copilot Extensions and MCP to automate inventory mapping, reducing manual enterprise migration planning and runbook overhead by 75%.

Strategy (MSTR) - Sales Engineering Intern

June 2025 - August 2025

- Automated market intelligence reporting for my department, measured by reducing manual competitor analysis effort by 90%, through developing an AI web-scraper agent synthesizing 500+ competitor reports weekly into 40 strategic insights company-wide
- Delivered cloud POC projected to improve regional system availability by 99.9%, by independently designing a comprehensive technical architecture with robust cross-region failover and performance benchmarks

GuidePoint Security - Security Engineering Intern

Jan 2025 - Apr 2025

- Deployed a SOC environment with 5+ VMs, Kubernetes, and Docker using IaC, reducing setup time by 40%
- Developed Bash scripts to automate system logging, reducing log delivery latency by 30% (from ~10s to ~6s) while processing 50,000+ logs daily, enabling faster and more reliable threat detection

University of Virginia - Data Structures and Algorithms Teaching Assistant

Jan 2024 - Dec 2025

- Supported the instruction for 500+ students in Java-based OOP and DSA, leading weekly labs of 100 students in a team of 30+ TAs

EDUCATION

University of Virginia | GPA: 3.8/4.0

May 2027

Bachelor of Arts in Computer Science

Charlottesville, Virginia

LEADERSHIP EXPERIENCE

The Collective - Founding Fellow

May 2026 - Current

- Founding fellow and recruiting for The Collective, a community of ambitious investors, founders, and operators. Partners include Ramp, a16z/speedrun, MongoDB, Stripe, AngelList, etc.

Technology Strategy Group - Director of Operations

January 2025 - Dec 2025

- For a consulting organization serving startups and businesses, scaled project volume 86% (7 to 13/semester) by launching Jira to streamline cross-functional delivery for 50+ consultants, and co-launched Oracle & Palantir partnerships to expand startup client reach.

PROJECTS & PUBLICATIONS

DiffSentry, OSS repository vulnerability scanner

<https://diff-sentry.tech/>

- Developed automated CI/CD security pipeline integrating GitHub Actions with REST API endpoints, performing real-time vulnerability scanning and code classification on ~1000 code snippets with 97%+ detection accuracy
- Won 2nd place for best overall project at the Google Developer Group showcase @ UVA in a club of 700+ people

SunnyGlasses, AI-Driven Sign Language Interpreter @ HooHacks

<https://github.com/bradyp19/SunnyGlasses>

- Developed an AI model able to convert ASL into speech, winning 3rd in the Accessibility Track out of 750+ people at HooHacks
- Trained a sign language recognition model using OpenCV for gesture detection and TensorFlow on Google Cloud, achieving a recognition accuracy of 98% based on ~1000 samples

AWARDS & HONORS

QuestBridge Match Full Ride Scholarship - Full-ride merit scholarship (~1% acceptance rate) for first gen. & low-income students

Jihoon Rim Scholarship - \$5,000 scholarship and mentorship from former CEO of Kakao Corp and NYU Stern Prof. Jihoon Rim

Echols Scholar - UVA Honors Program; Echols Scholars represent the top 5% of students in the College of Arts and Sciences

SKILLS, CERTIFICATIONS, & INTERESTS
